

# First Seed

NAME \_\_\_\_\_

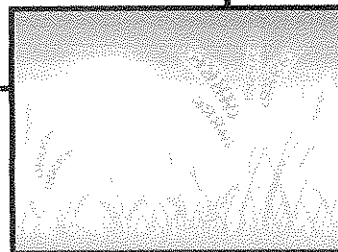

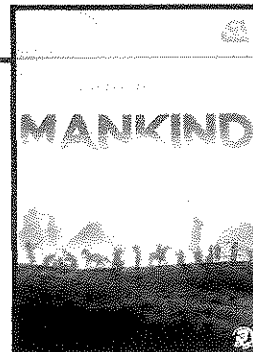

DATE \_\_\_\_\_

HOUR \_\_\_\_\_

DIRECTIONS: *USE WORDS FROM THE WORD BOX TO FILL IN THE BLANK.*

## WORD BOX

seeds      goats      one in ten      domesticated      wheat  
writing      Egypt      two million      violence      pigs  
pharaohs      two to three      tombs      diseases      ten times  
70 loaves      3000 BC/BCE      5,001 times

## Beginning of Agrarian Civilization – c. 8000 BC/BCE

- 1.) The first woman to plant \_\_\_\_\_ discovered that she could grow \_\_\_\_\_ when discarded \_\_\_\_\_ grew. This led to the end of hunting & gathering as a new crop conquered the globe.
- 2.) Farming allowed for greater food produced from a small area of land. An acre of land could feed \_\_\_\_\_ as many people as hunting & gathering. The new crop of \_\_\_\_\_ conquered the globe. From a single 60 pound bushel \_\_\_\_\_ of bread can be produced. By the year \_\_\_\_\_ farming reaches England.
- 3.) The first farm animals were \_\_\_\_\_, sheep, \_\_\_\_\_, and cattle. Animals that are tamed and bred are called \_\_\_\_\_ animals. Common \_\_\_\_\_ came about because of our living in close proximity to animals. Farmers were frequently attacked by others who were hungry and desperate. \_\_\_\_\_ skeletons from early farming folk showed signs of violence.
